CT Series Jaw Crushers
Rugged Primary and Secondary Jaw Crushers

Building Solutions Together
WWW.TRIOPRODUCTS.COM
Proven, heavy-duty design delivers excellent performance and easy operation.

TRIO offers a wide range of sizes of primary and secondary jaw crushers. They incorporate steeply aligned toggle seats for efficient nip angles and high production rates. The primary models offer hydraulically adjusted wedges for quick and easy adjustments to closed side settings.

All sizes incorporate a fixed jaw die configuration with a wrap-around design that protects the crusher frame. Easy-to-maintain cheek plate bolt system. Crushers are driven by extra large, overhead eccentric shafts seated in closely-spaced spherical, self-aligning roller bearings.

Applications
- Primary & secondary hard rock crushing
- Mixed demolition debris
- Crushed or broken concrete
- Asphalt
- River rock
- Industrial applications

TC Series Features
- Pitched fixed jaw dies and steeply aligned toggle seats
- Highly-effective geometry
- Fixed jaw dies with wrap-around design protect the frame and eliminate the need for additional wedges
- Hydraulically adjusted wedges for quick adjustments to closed setting when new products are needed or as jaw dies wear
- Side tensioning wedges to keep dies in correct operating position
- Advanced cheek plate bolt system for easy maintenance
- Spherical, self aligning roller bearings
- Extra large, drop-forged, heat-treated overhead eccentric shafts
- Fabricated, stress relieved steel frame
- Machined jaw plates and seating surfaces
- Reversible jaw plates
- Manual shim or hydraulic wedge closed side setting
- One-year warranty
- Continuing service commitment
- Global distribution
- Rapid delivery
- Off-the-shelf parts
- Superior quality

TRIO Builds Standard and Customized Solutions for Your Application Needs.

Whether it's feeders, crushers, washers, screens, conveyors, or complete plants, TRIO is known around the world for innovative engineering and unmatched value. Built to withstand the most demanding mine and quarry environments, TRIO helps companies meet their operational requirements on time and on budget.

TRIO sets a standard for responsiveness and flexibility in the industry, building the kind of relationships that the competition just can't match. Contact TRIO today to find about more about our range of durable, productive, highly-efficient and cost-effective aggregate and mining equipment.
